Re: For the merger of XM and Sirius radio

Dear FCC:

I am a current subscriber to XM radio. I believe that the merger of XM and Sirius Radio is a good idea, leading to more choices and options for consumers who will be able to choose between broadcast and over the air radio.

The greatest challenge to competition has already occurred. Allowing single companies to own multiple stations within one market has already significantly reduced competition in the market.

The combined XM and Sirius radio will provide excellent competition to the broadcast market. Please allow the merger of XM and Sirius radio.

Thank you in advance for your consideration of this issue.

Sincerely,

  
David I. Zucker
